Math Camps

DO YOU WANT TO EXERCISE YOUR CHILD’S BRAIN DURING THE SUMMER? About once a week in person math lessons in Ellicott City will provide review and enrichment in important math skills for children going into Kindergarten, 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th and 9th grades through:

- Math Games
- Math Literature Connections
- Hands-on Lessons and Activities
- Follow-up Work

Summer Math Camp: Focus is FUN and learning!

\$310 covers 6 classes and a HW book(9 classes offered). **I schedule three extra classes since students miss class due to vacations/camp schedules. Your child can attend any combination of Math Camp and Thinking Strategy/Math Game classes to equal 6 classes.** Each class is **1 hour**. Parents receive a summary email each week with what your child learned and photos from class! Your children will get a HW book with practice problems each week to help with retention of math skills during the summer! They will show me the completed HW each Math Camp class to hold them accountable!!

Choose the Camp of the Math level your child will be doing in the Fall!

How to determine Math Level? For example, if your child was in 1st Grade this year and worked above grade level doing 2nd grade math objectives, then your child will register for the 3rd grade group. Or, if your child is on grade level and just finished Grade 2 math, then you would sign up for the Grade 3 class.

Math Camp Guidelines:

- Payment of \$310 and registration form need to be returned to confirm your child's spot.
- Classes will be filled on a first come first serve basis (completed form & payment holds your spot).
- Minimum number of 5 students per class.
- There will be 9 total classes offered, and your fee covers 6 classes and the HW book. If your child attends the first six classes and would like to attend the 7th, 8th, or 9th class that is great. You can pay for the extra classes that day- \$40 per class.
